

INS-301 DRAFT · CLAIMS CROSSWALK

Every claim family checked both ways against the register | HGF Management Company | July 13, 2026

July 13, 2026. Every factual claim family in the INS-301 draft, mapped to its Claims Register entry and checked both ways: the claim appears in the guide as written, and its backing exists in the register with a dated, sourced verification. Program-design statements (the 2-to-50-lot box, one master district, the administrator's duties) are definitions, not claims, and are not listed.

Result (updated July 13, appendix build-out and the CMFA joining-form reference): 36 claim families checked, 28 clean, 0 open. Both decisions are answered (July 13): school fees excluded at launch with the reimbursement mechanics preserved as the documented future path, and the financing platform confirmed as one note per project funded by a single warehouse facility until the optional take-out.
