

INSITE™ PROGRAM STRUCTURE MAP

How a small-subdivision fee financing moves from application to the annual tax roll | HGF Management Company | July 2026

THE MASTER CFD + ANNEXATION MODEL

One CFD is formed per participating jurisdiction. Each new project annexes administratively into the existing district, so formation cost is paid once and per-project execution stays lean (founder-estimated \$5K-\$30K per annexation, pending real quotes).

Authority: Mello-Roos Community Facilities Act, Gov. Code sec. 53311 et seq. Value-to-lien: 3:1 statutory condition (sec. 53345.8); 4:1 is INSITE program policy (CSCDA precedent). Pre-launch concept. Not an offer of financing, legal, or investment advice. Structure subject to issuer approval.
